The problem solver
for friction
free function

special synthetic

MULTI SPRAY

INDUSTRIAL QUALITY

**Eliminate squeaking
and creaking**

**Loosens residues
and rust**

Displaces moisture

Protects and conserves

**Protects electric and
electronic parts**

ULTRASLIDE For maintenance and repair

special synthetic
**MULTI
SPRAY**

**The Problem solver for industry -
work shops - planes - cars - cycles -
bicycles - agriculture - marina - household -
hobby - garden.**

**Eliminate squeaking
and creaking**

Eliminates squeaking and creaking on all moving parts from metal and other materials, such as hinges, locks, doors and windows, springs, screws, rods, rails, chains, cables, joints, tools, etc ..

Loosens residues and rust

Triggers seized screws, nuts, bolts, joints, cable plug, pulleys, chain guides, hinges, fasteners, zippers, etc ..

Displaces moisture

Infiltrates and displaces moisture from ignition systems, batteries, spark plugs, cable connections, electronic parts, alternators, e-motors, switches, power tools, etc .. and prevents leakage currents (do not spray into electrical appliances while on power).

Protect and preserves

Metal, non-ferrous metals, rubber, plastic, wood. Prevents locks from freezing. Corrosion protection for garden tools, bicycles, car roof racks, ski bindings, sports and leisure equipment, tools, measuring tools, e-tools, machines, etc ..

Approved industrial grade

Constant checks of the supplied raw materials and quality controlled production grant the user constant quality.
